

Samuel Diaz

Active Secret Clearance – U.S. Department of Defense (DoD)

San Diego, CA | (619) 366-6699 | samdiaztech@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [Credly](#)

WORK EXPERIENCE

Programs Management Analytics & Technologies (PMAT)	San Diego, CA (Hybrid)
Information Systems Security Officer (ISSO)	Mar 2026 – Present
<i>Ship Self Defense System (SSDS) Program</i>	
- Supported RMF implementation, continuous monitoring, and NIST SP 800-53 compliance across SSDS. - Conducted 300+ security control assessments across multiple review cycles to ensure DoD compliance. - Revised and maintained program policies, procedures, and artifacts supporting NIST SP 800-53 compliance.	
<i>Enterprise Cybersecurity</i>	
- Supported enterprise CMMC Level 2 compliance efforts across corporate and program environments. - Developed 5 network and data flow diagrams documenting enterprise system boundaries and CUI data flows. - Revised 14 organizational cybersecurity policies to align with NIST SP 800-171 and strengthen governance.	
<i>Integrated Missions Branch (IMB) Program</i>	
- Assessed AWS security controls and presented findings and remediation recommendations to stakeholders. - Develop security artifacts and evidence to support security control implementation and compliance. - Developed network and data flow diagrams documenting CUI flows across the AWS environment.	
Software Engineer	May 2023 – Mar 2026
<i>Ship Self Defense System (SSDS) Program</i>	
- Maintained and enhanced combat system software for the Navy's Ship Self Defense System (SSDS) program. - Developed Jira API queries to extract and analyze historical trouble report data across engineering teams. - Resolved 20+ complex software defects through code analysis, debugging, and trouble report investigation. - Integrated 30+ code merges spanning multiple software layers and baselines to support production releases. - Supported software integration, testing, and troubleshooting within a System Integration Laboratory (SIL). - Developed and executed 10+ test procedures to validate software functionality prior to system integration. - Collaborated with systems, software, and security engineers within an Agile development environment. - Created and maintained technical documentation supporting software changes and testing efforts.	

TECHNICAL SKILLS

Programming: Python, Java, SQL, JavaScript, C++, R, Bash, HTML, CSS, C#
Development: AI/ML, APIs, Agile, Docker, Git, GitLab, .NET, Jira, Confluence, VS Code, Jenkins CI/CD, SDLC, Postman
Data Science: Excel, Matplotlib, MySQL Workbench, Pandas, RStudio, NumPy, PyTorch, Scikit-learn
Cloud & Platforms: AWS, Google Cloud, macOS, RHEL 8, Ubuntu, Windows
Systems Engineering: Systems Architecture, Network and Data Flow Diagrams, Requirements Analysis, Configuration Management, System Integration Laboratory (SIL), Technical Writing
Cybersecurity: RMF, ATO, eMASS, NIST SP 800-53, NIST SP 800-171, CMMC Level 2, STIGs, SSPs, Governance

EDUCATION

MS, Information Systems – San Diego State University	(Expected) 2026
Graduate Certificate in Data Science	2025
BS, Computer Science – Western Governors University	2024
BSBA, Information Systems – San Diego State University	2022

CERTIFICATIONS

Google Cloud Computing Foundations – Google Cloud	2025
CompTIA Security+ – CompTIA	2024
Linux Essentials – Linux Professional Institute	2024
